1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Atty: Aaron Wininger on March 15th & 17th, 2005.

The application has been amended as follows:

In claim 14, on line 4 delete "first vias" and insert -- conductive vias --, on line 5 delete "first vias" and insert -- conductive vias --, on line 8 delete "to form" and insert -- between --, on line 12 delete "second vias" and insert -- conductive vias --.

In claim 17, on line 2 delete "between" and insert -- on --, delete "vias and one of said adjacent laminating layer and said core substrate" and insert -- conductive vias -
-.

In claim 20, on line 2 delete "thermal plastic" and insert -- thermoplastic --, on line 3 delete "thermal setting" and insert -- thermosetting --.

Replace the amended claim 21 as following:

21. A lamination multilayer substrate, at least comprising:
a core substrate having a plurality of through holes therein; and
a plurality of laminating layers stacked and laminated on said core substrate, wherein each said laminating layer has a dielectric layer with a first side and a second side, a patterned conductive layer positioned at the first side, and a plurality of conductive vias with a first ends and second ends positioned within the dielectric layer

and a barrier metal layer between the patterned conductive layer and the first end of the conductive vias, wherein the barrier metal layer is a stop layer between the patterned conductive layer and the conductive vias, and the first ends of the vias electrically connect with the patterned conductive layer and the second ends of the conductive vias electrically connect with an adjacent layer of one of said laminating layers and said core substrate, wherein said dielectric layers are bonded together.

In claim 24, on line 2 delete "between" and insert -- on --, after "vias and" insert -- between --, on line 3 delete "and said core substrate".

In claim 26, on line 2 after "disposed" insert -- on --.

In claim 27, on line 2 delete "first", delete "thermal plastic" and insert -- thermoplastic --, delete "thermal setting" and insert -- thermosetting --.

In claim 30, on line 2 after "disposed" insert -- on --.

Claims 31-35 have been canceled.

2. The following is an examiner's statement of reasons for allowance: there is no teaching in the prior art directed to a multilayer structure having a barrier metal layer between the conductive metal and the surface conductive pattern as claimed by the applicant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
